

GLOVELY

GUT LOVING GOODNESS!

Introducing Glovely - a deliciously different new gelato which not only tastes amazing, it's also good for your gut.

Made in Melbourne with fresh whole milk and cream, real fruits, cacao and the natural sweetness of rice malt syrup, Glovely tastes like a lusciously creamy ice cream but is healthier.

Glovely uses kefir, a probiotic superfood, as it's star ingredient. Kefir contains hundreds of types of bacteria that improve gut health. With up to 80% of our immunity depending on a flourishing of good bacteria, Glovely makes prioritising our gut health deliciously easy.

Targeting the health-conscious consumer who is exploring healthier and premium products, Glovely stand outs because we have not compromised on flavour in making our healthier, kefir-based gelato.

Our customers enjoy a daily portion of two heaped tablespoons of creamy, luscious tasting Glovely knowing it contains a lot less sugar than an apple!

Glovely is available in 100ml and 500ml tubs of the following 5 flavours that appeal to both adults and children:

- Vanilla Bean
- Lemon
- Mango
- Choc Raspberry
- Choc Orange
